

for a greener tomorrow

PUSHING THE BOUNDARIES OF MODULAR PLC TECHNOLOGY.

PROGRAMMABLE LOGIC CONTROLLERS

To succeed in highly competitive markets, it's important to build automation systems that ensure high productivity and consistent product quality. The MELSEC iQ-R Series has been developed from the ground up, based on common problems faced by customers, so as to improve Productivity, Engineering, Ease of Maintenance, etc. Mitsubishi Electric is taking a three-point approach to solving these problems: Reducing TCO, increasing Reliability and Reuse of existing assets.
